Visit Our New and Enlarged Sales Department

To improve our service and facilities for the home owners who like to visit our nurseries and take plants home with them, we have extended our store and lath display houses.

Choice, freshly dug plants are available and on display. We have an excellent stock of Fruit Trees, Berry Bushes, Grapes, Asparagus, Rhubarb.

Flower and Vegetable Seeds, Lawn Seed, Fertilizers, Insecticides and Garden Sundries are stocked for your convenience.

Many items especially priced. Seasonal sales.

LANDSCAPE SERVICE

Artistic and satisfactory landscape effects are the result of careful planning and the proper use of the right material.

Why not consult us about your landscape problems? Suggestions and advice will be gladly given. Appointments can be arranged at your convenience.

GUARANTEE

(In conformity with uniform guarantee as adapted by National Landscape Nurserymen's Association.)

Provided account is paid within 30 days, and plants have received reasonable care and protection, we will replace at one-half original cost all woody plants furnished and planted by us which fail to survive one growing season. Guarantee does not apply in cases of loss due to drought, severe winter, storms, insect injury, or factors beyond our control.

If plants to be replaced are out of stock, credit will be applied to other plants.

PLANTING

The cost of planting, if we do it, is borne by the purchaser. Our charge merely covers the cost of labor, fertilizers, etc.

DELIVERY

On large orders, where they can be combined, we intend to give free delivery within a radius of 30 miles from our nursery. On smaller orders a nominal charge for delivery will be made unless otherwise arranged at time of sale.

Cornus florida (White-flowering Dogwood)

Ornamental and Shade Trees

IN ADDITION to the trees which are valued for their shade, there are flowering trees which, at different times during the spring and summer, shower the lawn with their bloom. Do not forget that while shade trees add materially to the property value and landscape charm of your home, the initial cost is very small as compared with the enjoyment that you receive. The average shade tree is a long investment and returns your money manifold throughout the years of its usefulness.

The abbreviation "cal." means the caliper or diameter of the tree 6 inches above the ground.

Flowering Shrubs

WHETHER planted individually or collectively, shrubs are an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen the garage, the laundry-yard, or some unsightly view. Among borders of the lawn, along walks and drives and in corners, collections of shrubs may be gathered that will give a succession of bloom from early spring until fall. In the list that follows will be found shrubs for all such purposes.

Prices for Shrubs, except where otherwise noted:

A Few Practical Hints on Planting

Always keep roots covered when plants are out of the ground. Dig hole large enough to receive plant without bending roots. Break up subsoil and mix it thoroughly with rotted stable manure.

Set plants slightly deeper than they stood at the nursery. Work in good soil among roots so as to leave no air-pockets. Fill hole and tamp soil down thoroughly with the heel of shoe. Leave slight depression around plant to catch the water, and water thoroughly.

A booklet with more detailed planting instructions will be gladly sent upon request, free of charge.

Broad-Leaf Evergreens

WITH few exceptions, no grounds, either small or extensive, should be without some representative of this rich and interesting group of plants. They endure shade, and their rich blossom and foliage effect makes them almost indispensable. Certain varieties of this class, such as Rhododendrons, Azaleas, and Laurel, ordinarily grow more satisfactorily and show to better advantage when planted in rather heavy masses. A deep, cool, moist subsoil, with proper drainage, is ideal. As a rule, they dislike lime, or limestone soil, and success will be more certain on such soils if they are planted in woods earth or mulched with peat moss. Oak leaves are ideal for covering the ground beneath them.

The steady growth of our nursery business is evidence of our success in producing reliable, well-grown stock and rendering efficient and dependable service to our clients.

The quality of the product is no higher than the integrity of the producer, and we assure you there is a vast difference between the results obtained with well-grown, freshly dug plant material and the bargain-priced nursery stock sometimes offered.

When you purchase plants from Bulk's you are assured of value and may anticipate years of lasting satisfaction.

You will find a visit to our Nurseries very interesting and worth while, and are welcome at all seasons. A visit when the Ornamental Trees, Shrubs, or Rhododendrons are in bloom is an excellent time for making selections. Information concerning the various plants and their proper use and care will be cheerfully given.

Evergreens

IN THIS group are contained some of the most valued plants for landscape effects. The diversity of color and habit of growth in this class provide truly “a plant for every place and purpose,” some for limited areas of foundation plantings or for bed and border uses, others for screens, hedges, windbreaks, and for group and specimen plantings. They are always desirable for both summer and winter effects.

ABIES • The Firs

Abies douglasi (*Pseudotsuga douglasi*). *Douglas Fir*. This tree is hardy and adapts itself to either dry or moist situations. It will thrive in semi-shade as well as in full sunlight. Pyramidal in habit, with bluish green, short needles, closely borne along the branches.

Increases Property Value

Beautifying your home grounds is an investment which pays immediate dividends. The moment you set an ornamental or fruit tree, a shrub, plant or vine, your property becomes more valuable and desirable. Real estate dealers have estimated that the addition of a few trees and shrubs in a new subdivision often increases the property value 20%. Most things depreciate from the minute of purchase. Planting is one of the few investments that *do not depreciate* but bring *increased* returns in actual value and satisfaction.

Evergreen Hedges

From time immemorial people have used hedges and fences to protect their property from intrusion and to secure privacy.

ARBORVITÆ

Pyramidal. Because of its shapely habit of growth and deep green foliage, this makes a very fine hedge.

ROSES, CLIMBING. See Roses

Bulk's Hardy Roses

R OSES—the mere name is an inspiration to garden lovers. Nothing can take the place of the Rose. Almost every home has room for at least a few. Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal fertilizing, and good cultivation. Branches should be well cut back early each spring.

Fruits

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield, which you will enjoy eating right from the trees or in winter as preserves and jam. The fruit-garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide blooms for cutting.
